

IRANIAN BUSINESS DELEGATION BOOKLET

Organized by AROMEDE | 22nd - 30th August 2023

Center for International Science and Technology cooperation

About Center for International Science and Technology cooperation

This center was formed with the aim of laying the groundwork for increasing scientific, technological and innovation relations with other countries, as well as achieving a clear and significant position in regional and global trade of knowledge-based products.

Due to its cross-sectoral position, the Center for International Science and Technology cooperation manages the macro-coordination of technology activities, innovation in bodies and institutions related to abroad, export of knowledge-based goods and services, supply and demand of technology (technology transfer), laying the groundwork and development of technology diplomacy, etc.

Tech-Export Services Corridor

کریدور توسعه صادرات و تبادل فناوری

Tech-Export Services Corridor

About Tech-Export Services Corridor

Tech Export Services Corridor (TESC) provides Iranian High-tech and medium-tech companies with export support services. TESC facilitates the export process for Iranian manufacturers by providing services in the areas of marketing, consultancy, and international alliances.

TESC chooses production providing the highest quality product based on Export Readiness Assessment (ERA) and supports competent manufactures in promoting their export share.

Therefore TESC is capable of certifying the quality of product and reliability of Iranian producers in high-tech fields and creating a trustful environment for collaboration between Iranian and foreign companies, as well.
